7th Annual Yale Epilepsy Symposium
Friday, November 17, 2017

Registration Information
PLEASE NOTE: You must register online. The informational panel is not a registration form.

Online registration is open! WWW.CME.YALE.EDU

Details
ACCREDITATION STATEMENT
The Yale School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

UNCONFLICTED STATEMENT
The Yale School of Medicine designates this live activity for a maximum of 7.0 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

FACILITY SUPPORT
The Yale School of Medicine, Department of Neurology is grateful to its supporters.

DISCLOSURE POLICY
It is the policy of Yale School of Medicine, Continuing Medical Education, to ensure balance, independence, objectivity and scientific rigor in all its educational programs. All faculty participating as speakers in these programs are required to disclose any relevant financial relationship(s) they (or spouse or partner) have with a commercial interest that benefits the individual or any financial amount that has occurred within the past 12 months; and the opportunity to affect the content of CME about the products or services of the commercial interests. The Center for Continuing Medical Education will ensure that any conflicts of interest are resolved before the educational activity occurs.

Registration
Registration fee* includes all conference materials, continental breakfast, refreshment breaks, and lunch:
• Yale School of Medicine Physician – $150
• Yale Comprehensive Epilepsy Center Staff – complimentary
• Yale Comprehensive Epilepsy Centers Nurses – complimentary
• Yale Resident/Fellow/Student† – complimentary
• Non-Yale Resident/Fellow/Student† – $30
• Nurse/PA/Allied Health Professional – $75
• All others – $100

*All registration fees must be received no later than 5pm (EDT) on Friday, November 10, 2017.
†A letter of verification from department head must accompany registration. Letter should be sent separately to receive a refund. Any requests for refunds received after this date, or by telephone, will not be honored.

Register online, at cme.yale.edu

If you have any questions, please contact Yale CME at cme@yale.edu or 203.785.4578.

Registration must be completed online.

Epilepsy and seizures affect almost 3 million Americans of all ages. Tremendous advancements have been made in epilepsy treatment over the past decades. Epilepsy may be treated with drug therapy, surgery, neurostimulation or a ketogenic diet. The wide range of antiepileptic drugs (AEDs) remains the cornerstone of treatment. Even with the plethora of epilepsy therapies now available, the Centers for Disease Control and Prevention estimate that at least 45% of people with epilepsy continue to experience seizures. A serious gap exists between established recommendations and the actual care patients receive. This activity will bring participants up-to-date on the new advancements in the field and increase their awareness of the new therapies available for their patients.

This course will enable participants to:

- Update their knowledge in the diagnosis and treatment of autoimmune epilepsies
- Identify the challenges related to driving in patients with epilepsy
- Recognize the importance of genetics in epilepsy diagnosis and treatment
- Discuss treatment options in patients with psychogenic non-epileptic seizures
- Identify special issues concerning women with epilepsy
- Appreciate the value of ICU EEG monitoring
- Discuss the surgical treatment of epilepsy
- Practice the utility of the responsive neurostimulator
- Discuss treatment options in patients with psychogenic non-epileptic seizures
- Recognize the importance of genetics in epilepsy diagnosis and treatment
- Identify the challenges related to driving in patients with epilepsy
- Update their knowledge in the diagnosis and treatment of autoimmune epilepsies

Learning Objectives

This course will enable participants to:

- Update their knowledge on new antiepileptic medications
- Utilize the most recent imaging techniques in patients with epilepsy
- Utilize practical guidelines on how to interpret an EEG and discuss common pitfalls
- Discuss the surgical treatment of epilepsy
- Appreciate the value of ICU EEG monitoring
- Identify special issues concerning women with epilepsy
- Update their knowledge in the diagnosis and treatment of autoimmune epilepsies

YALE SCHOOL OF MEDICINE SYMPOSIUM

The symposium will take place at Yale West Campus, 8 West Campus Drive, Building 800 / Conference Center, Orange, CT.
