YALE SCHOOL OF MEDICINE CONFERENCE
This conference will take place at The Avenir Center for Medical Research and Education 300 Cedar Street, New Haven, CT.
Chronic liver disease represents an increasingly common condition managed by primary care, infectious diseases, surgery, and gastroenterology physicians and mid-level providers. Each subdiscipline area of hepatology has become progressively complex and rapidly evolving. This course will meet the need of physicians and mid-level providers to receive information on the most relevant and updated information from the past year, including that presented at international research meetings sponsored by the American Association for the Study of Liver Diseases, Infectious Diseases Week, and the European Association for the Study of the Liver. A panel of experts in hepatology will provide commentary and clinical relevance concerning the material presented.

Learning Objectives
• Discuss recent developments in the diagnosis and treatment of Diseases of the Liver
• Identify new data in the management of hepatocellular carcinoma (HCC)
• Define optimal management approaches to improve outcomes in post-transplant patients
